

About this Project:

Altona Gators Basketball Club (code: AL)

The Altona Gators Basketball Club offers a representative level basketball program at both junior and senior level. The Director of Coaching, Randy Shanklin, is looking to develop a program to present training materials for coaches (both new and existing). These materials include diagrams, text and videos and end in a coaches certification assessment. There should be logins for an administrator (the director of coaching). From this login, the administrator should be able to add new materials, and delete materials, as the coaching program changes or expands. The administrator should be able to create logins for coaches (and also delete access to coaches who have left the program). The administrator should be able to select which materials are visible to which coach (e.g., depending on which level, age group, gender) the coach is coaching. There should also be a login screen for coaches. Once they log in, they should only be able to access the materials that have been selected for them.
